Isha Vidhya transforms the lives of underprivileged rural children by making a holistic, high quality, English-medium education accessible and affordable to them. Isha Vidhya runs several schools in villages and plans to build many more to demonstrate that high quality education can be delivered to the poorest in rural areas in a sustainable manner on a large scale.

Using this learning, interventions are also being carried out in Govt. schools to enhance the quality of education through addition of teachers to fill critical gaps, hiring extra teachers for coaching slow learners, teacher training, English language program, introduction of sports, yoga, arts, etc .
